How to Complete this Form

1. Description of Properties. Make sure that the correct box(es) are checked and that the properties are properly described. The descriptions should identify exactly what Oracle is being permitted to use (e.g., XYZ Telecom's corporate logo and the following quote from Joe Smith, XYZ Telecom's CIO: "Oracle's offerings helped us save a bundle."). Further descriptions and examples can be attached. In the text box section of the Permission Form, reference attachments via use of the statement, "See attached."

2. Specification of Promotional Materials. This section should only be filled out if you want to limit use of the properties to specific Oracle promotional materials or activities. If use is being restricted, make sure that the correct box(es) are checked and that the Oracle promotional materials or activities are properly described. The descriptions should identify exactly what promotional materials or activities with which Oracle is being permitted to use the properties (e.g., Oracle presentation on ABC at XYZ event). Further descriptions and examples can be attached. In the text box section of the Permission Form, reference attachments via use of the statement, "See attached."

3. Granting of Permission. Any individual agreeing on behalf of a company or organization must be authorized to do so. In the event that permission is being granted to use a person's likeness or testimonial (this includes name, biographical information, likeness, portrait, image, picture, voice, quotes, all or parts of interviews or information obtained from interviews), that person must be the person agreeing. Make sure to type in your name, company, title, email address and the date in the text box at the bottom. To grant the permission subject to the terms set out in the Permission Form, check the "I AGREE" check box.

4. Return Completed Form and Any Attachments to Oracle. Save the completed Permission Form and attach it, along with any attachments, to an email. Send the email and attachments to Oracle. If a company logo is being provided, we prefer a vector-based, .eps format, as this scales easily and is suitable for print, but we will accept a .gif or .jpg format.
